Brooks of Bonita Springs I & II Community Development District's C/O Wrathell Hunt and Associates, LLC 9220 Bonita Beach Road, Suite 214 Bonita Springs, Florida 34135

December 08th, 2020

Here at Irrigation Design Group & Associates, we would like to express our appreciation for allowing us to work with you on the Irrigation System.

Due to business decline and finical hardship from the pandemic, Irrigation Design Group & Associates will cease all operations starting on January 1^{st} 2021.

We will schedule a meeting with Brooks of Bonita Springs to discuss possibility transitioning to another consultant by their request.

We apologize for the inconvenience this may cause you.

Regards,

Chris Perkins

President

Irrigation Design Group & Associates, Inc.

			\$8,950	\$17,900		\$25,050

Option #3 - Same as Option #1 with Nite visits only Apr thru August (used at Mediterra in 2020)

			ttl Cost/Mo		Add Apr thru	
Neighborhood	Night Visit	Day Visit	Mar/Sep	ttl cost/option #1	Aug Nite visits only	ttl cost/option
Lighthouse Bay	\$715	\$450	\$1,165	\$2,330	\$3,575	\$5,905
Spring Run	\$1,430	\$450	\$1,880	\$3,760	\$7,150	\$10,910
Copperleaf	\$1,430	\$450	\$1,880	\$3,760	\$7,150	\$10,910
Shadow Wood	\$3,575	\$450	<u>\$4,025</u>	<u>\$8,050</u>	\$17,875	<u>\$25,925</u>
			\$8,950	\$17,900		\$53,650

Notes:

- 1) Nite visits are for the collection of adult toads only as they are more easily seen with flashlight reflection off their eyes
- 2) Day visits are primarily for collection of tadpoles along the pond edges and are most prodcutive during the primary breeding months

Pesky Varmints, LLC

Office 239-353-PEST (7378) www.peskyvarmintsFL.com

Cane Toad 101:

What are these pesky Cane Toads? The invasive Cane Toad population appears to be booming in Southwest Florida. A varmint of many names, including Bufo Toad, Giant Toad and Marine Toad. They produce a white toxin on each side of their head that can be fatal if pets or wildlife comes in contact with it. There must be pressure on the glands for the toxin to be released, for example; stepping on the toad or an animal biting the toad. They reproduce quickly and have no known predators in Florida's ecosystem.

How are they harming our wildlife and pets? These invasive toads prey on our natural wildlife, including our native toads and tree frogs. The Pesky Varmints team has even seen these toads eating our native wildlife such as softshell turtles! They also compete for the same food source, which poses a threat to our native critters. The Cane Toads release a poison that is highly toxic to your pets and native animals and can cause serious illness and even death. The Cane Toads are poisonous in all stages of life from eggs to tadpoles and especially adults.

Where did they come from? These toads are native to South America, but were brought to Florida in the 1930's and 1940's to help control beetles and insects in the sugar cane fields. These toads are strictly ground dwellers, they do not hop high or climb so it was discovered they were not a very good pest control when they couldn't reach the bugs! Being a nonnative species to Florida, they have no known predators here, and the fact that they breed all year round is the perfect storm for the population to get out of control.

When are they most active? Cane toads are most active during the night time hours. Sitting in the hot Florida sun will dry their skin up, which is why they try to hide out in a shady place during the daytime. Like most amphibians, these toads love the hot and humid weather, and the summer rains bring them out and about.

Who can help to eradicate them? You can! If you see a toad around your home, remove it and humanely euthanize it. For safety purposes, we recommend gloves. Get a plastic bag and pick it up the way you would pick up after your pet when you're on a walk. It wouldn't hurt to double bag it! Put it in the freezer until your next garbage day. Look to eliminate any hiding places and standing water on your property. Thin out your landscape from the ground up so there are not any places they can get in to.

Why is it important to get involved? This invasive species have no known predators in the Florida ecosystem and breed rapidly. It is important for everyone to help eradicate these poisonous toads to help protect all your furry family members and the beautiful Florida wildlife.

Office 239-353-PEST (7378) www.peskyvarmintsFL.com

These poisonous Cane toads are strictly ground dwellers, which means they do not climb. The frogs seen on the ceiling, lights or behind the hoses are tree frogs, which are different from the Cane toads. Below are pictures of tree frogs for reference. These are not harmful like the Cane Toads. They can easily be mistaken for a juvenile Cane Toad, but even the juveniles will stick to the ground. If you have questions about the Cane Toad VS Tree Frog, please take a picture and email to us, we will be able to identify it.

TREE FROGS:

JUVENILE CANE TOADS:

• Keep dogs on a leash when walking in the late evening or early mornings. Always watch where your dog is sniffing, and keep a flashlight handy!

Pesky Varmints, LLC

Office 239-353-PEST (7378) www.peskyvarmintsFL.com

Pesky Varmints - Cane Toad Process:

Step 1: Major Clean Out for adult breeders. Work completed during night time hours when toads are most active. Our team is very quiet and discreet when working at night so residents are not disturbed. We notify Management prior to the scheduled date so residents are aware when we will be on property. Our crew wears yellow reflective vests when working at night so they can be easily identified. Lights used are kept towards the ground so there is not light

shining into homes.

Step 2: Lake clean out for eggs and tadpoles. We use the poison from the adult toads to attract the cane toad tadpoles. This process is completed hands on with nets but traps might be placed in the lakes for tadpole collection. This is the most effective way to remove the invasive cane toad tadpoles while not harming the native tadpoles.

Step 3: Stay on top of the population with monthly visits. These cane toads reproduce quickly and in large amounts. They are invasive to Florida's ecosystem and have no known preditors. We cannot guarentee 100% eredication, but we can guarentee to bring the population down to a managable size.

Info@PeskyVarmintsFL.com

Cane Toads:

The invasive Cane Toad population appears to be booming in Southwest Florida. A varmint of many names, including Bufo Toad, Giant Toad and Marine Toad. These toads are native to South America, but were brought to Florida in the 1930's and 1940's to help control beetles and insects in the sugar cane fields. Being a nonnative species to Florida, they have no known predators here, and the fact that they breed all year round is the perfect storm for the population to get out of control. These invasive toads prey on our natural wildlife, including our native toads and tree frogs. They also compete for the same food source, which also poses a threat to our native critters. The Cane Toads release a poison that is highly toxic to pets and native animals and can cause serious illness and even death. Keep your furry loved one far away from these toads. Here are some tips to help control the population at your home;

- Remove any items on property that can hold standing water. This will eliminate areas for the adult toads to lay their eggs.
- Keep all pet food stored safely inside the home. Cane toads are attracted to dog and cat food that is left outside.
- Thin out any thick landscape and shrubs around the home. These areas provide warm, damp shelter for the toads to hide during the day.
- Keep dogs on a leash when walking in the late evening or early mornings. Always watch where your dog is sniffing, and keep a flashlight handy!

94		A moment of silence was observe	ed in honor of former Supervisor Jack Meeker. Mr.
95	Bartol	letti noted Mr. Meeker's untimely p	passing and stated he would forward the obituary to
96	Mr. A	dams for distribution.	
97			
98	JOINT	BOARD BUSINESS ITEMS	
99	FOUR	TH ORDER OF BUSINESS	Landscape Report: GulfScapes
100		Main Line Irrigation Breaka	ge Report
101		Mr. Blake Grimes reported the follo	owing:
102	>	The flowers would be installed nex	t week and fertilizer was applied in October.

Update: IDG Review of Water Usage Data

Pine straw installation was scheduled for November 23rd and palm pruning was scheduled in November.

Regarding the mainline breaks, Mr. Grimes presented the Year to Date (YTD) Mainlines Report and stated there were several mainline breaks during the year and, although the repair costs are not astronomical, they are above average. Mr. Bartoletti asked for the Report to be maintained to have a history of the clocks, zones and repair amounts each month. Mr. Grimes would document the mainline breaks in December and commence a new report in January for the New Year. Mrs. Adams voiced her preference for the reports to be in accordance with the fiscal year of October 1 through September 30, instead of year-to-date (YTD). Discussion ensued regarding the September Clock 7 mainline repair, damage to the right-of-ways (ROW) by utility companies and following up with contractors for reimbursement in cases where the CDDs facilitated the repairs. Mr. Grimes would report any damages to CDD property to the contractors, alert Mrs. Adams and follow up with the contractors for reimbursement, if needed.

FIFTH ORDER OF BUSINESS

A. Consideration of Continuing Consulting Service Proposal

Mr. Perkins presented the Continuing Consulting Service proposal for \$1,150 per month. Mrs. Adams stated that the three-year contract between the CDDs and IDG expired in July 2020 and the Boards agreed to revisit this to determine if the contract should be renewed. Mr. Bartoletti asked what services were included in the \$1,150 monthly fee. Mr. Perkins stated everything would remain the same except there would be a more in-depth evaluation, since the flow sensors were installed.

Mr. Bartoletti expressed his frustration with the 14-page reports that Mr. Perkins presents and asked if there could be a rate reduction by eliminating the reports. Mr. Perkins stated the reports could be eliminated but the price would remain the same. Discussion ensued regarding whether the charts reflect cost-savings, flow sensor averages, flow meters, addressing low flow and no flow areas, performing "on-the–ground" audits to count the number of heads per zone, establishing a benchmark, preferred format for the IDG reports and the next steps.

B. Controller 7 Update

Discussion ensued regarding Controller 7, gallons per minute, zones and data needed to establish a baseline. Mr. Bartoletti asked GulfScapes to forward a report to Mrs. Adams for distribution to the Supervisors that contains the empirical data baseline for Controller 7, per zone. Mr. Grimes would forward a proposal to Mrs. Adams this week and, the following week, he would perform head counts, obtain gallons per minute data by zone and forward the information to Mrs. Adams. Mr. Perkins would add the flow rates and prepare a summary with the findings and recommendations.

On MOTION for Brooks of Bonita Springs by Mr. Merritt and seconded by Ms. Varnum, with all in favor, the IDG Continuing Consulting Service Proposal, for \$1,150 per month, from November 1, 2020 through October 31, 2021, with a 30-day termination by either party with written notice provision, was approved.

On MOTION for Brooks of Bonita Springs II by Mr. Bartoletti and seconded by Mr. Bertucci, with all in favor, the IDG Continuing Consulting Service Proposal, for \$1,150 per month, from November 1, 2020 through October 31, 2021, with a 30-day termination by either party with written notice provision, was approved.

Asked if he confirmed that the damage that resulted from the TECO installation in the Districts' ROW was corrected, Mr. Blake Grimes stated the sod was installed but the irrigation repairs were required, as of last week; he would check on it tomorrow. Asked if the Lighthouse Bay issue was remedied, Mr. Grimes stated the Century Lake issue was unresolved.

SIXTH ORDER OF BUSINESS

Presentation: NPDES Year 3 Cycle 4 Annual Report

Mr. Burford presented the NPDES Year 3 Cycle 4 Annual Report for the reporting year commencing in May 2019 through the end of April 2020. He reviewed the pertinent data that could be found in each section. Mr. Gould requested a brief description of the expenditures in the Fiscal Analysis Section, on Page 2. Mr. Adams stated the expenditures were primarily in the water management portion of the budget, including lake bank erosion repairs, which help with

BROOKS OF BONITA SPRINGS & BROOKS OF BONITA SPRINGS II CDDS

DRAFT

October 28, 2020

pollutant loading, along with the NPDES reporting part of the budget, which is in the professional portion. Mr. Burford discussed the Stormwater Management Program, litter control, flood control projects, illicit discharges, improper disposal, construction site runoff and the accompanying attachments, namely, the water quality status summary and pollutant-loading table. Discussion ensued regarding water quality, reporting costs, partnering with the Village of Estero as a co-permittee, GulfScapes and SOLitude.

SEVENTH ORDER OF BUSINESS

Discussion/Consideration: Pesky Varmints, LLC, Cane Toad Information and Removal Proposals

Mrs. Adams recalled that Mr. Bartoletti previously asked Management to obtain proposals for removal of cane toads.

A. Proposals

- I. Daytime Visits for Cane Toad Tadpole Removal
- II. Nighttime Visits for Cane Toad and Cane Toad Tadpole Removal

B. Additional Literature

Mr. Adams stated Management started a tadpole removal and eradication program at another District. The first year investment was approximately \$12,000 and the program resulted in a major reduction of the frog population. He suggested sharing the costs with the HOA or community associations, as The Brooks is a large community and the program would be costly. Discussion ensued regarding tadpole seasons, the cane toad issue, CDD responsibility for lake maintenance, reasons why the CDDs should not assume responsibility for cane toad removal, the four community associations and which entity should take the lead in controlling the cane toads. Mr. Cox stated the CDDs are responsible for maintaining preservation areas, which support native vegetation and wildlife, and the toads could have an adverse affect on native wildlife. Mr. Adams stated, ultimately, it is a policy decision of the Boards and there is justification on both sides of the argument. Mr. Bartoletti advocated for the funding and analysis/evaluation of the lakes to prescribe a cane toad removal program and to distribute and share the data with the community associations.

On MOTION for Brooks of Bonita Springs by Mr. Merritt and seconded by Mr. Douglas, with all in favor, the Pesky Varmints LLC Estimate for Cane Toad Control, in the amount of \$450, was approved.

On MOTION for Brooks of Bonita Springs II by Mr. Bertucci and seconded by Mr. Bartoletti, with Mr. Bartoletti, Mr. Bertucci and Mr. Pierce in favor and Mr. Gould and Mr. Brown dissenting, the Pesky Varmints LLC Estimate for Cane Toad Control, in the amount of \$450, was approved. (Motion passed 3-2)

EIGHTH ORDER OF BUSINESS

Update: Potential Refinancing of Brooks Series 2001 and Brooks II 2003A Bonds

Mr. Bartoletti presented the proposal to refinance the Brooks Series 2001 and Brooks II 2003A Bonds. Mr. Gould asked about the cost-savings if the Districts proceeded with the refinancing. Mr. Adams stated the savings would be substantial, due to the reduction in the current interest rates. He discussed loan fees, review fees and payment due dates. Discussion ensued regarding the loan documents, estimated legal fees and the closing date.

On MOTION for Brooks of Bonita Springs by Mr. Merritt and seconded by Mr. Douglas, with all in favor, accepting the terms of the proposal to Refinance the Brooks Series 2001 and Brooks II 2003A Bonds, was approved.

On MOTION for Brooks of Bonita Springs II by Mr. Bartoletti and seconded by Mr. Bertucci, with all in favor, accepting the terms of the proposal to Refinance the Brooks Series 2001 and Brooks II 2003A Bonds, was approved.

NINTH ORDER OF BUSINESS

Acceptance of Unaudited Financial Statements as of September 30, 2020

Mr. Adams presented the Unaudited Financial Statements as of September 30, 2020. Discussion ensued regarding sharing maintenance costs with The Commons Club, the Financial Highlights Report, aeration and the settlement with BrightView. The financials were accepted.

TENTH ORDER OF BUSINESS

Approval of August 26, 2020 Joint Public Hearing and Regular Meeting Minutes

BROOKS OF BONITA SPRINGS & BROOKS OF BONITA SPRINGS II CDDS

BROOKS OF BONITA SPRINGS & BROOKS OF BONITA SPRINGS II COMMUNITY DEVELOPMENT DISTRICTS

Wrathell, Hunt and Associates, LLC

TO: Brooks I & II Board of Supervisors

FROM: Tammie Smith – Operations Manager

DATE: January 27, 2021

SUBJECT: Status Report – Field Operations

<u>Landscape Review:</u> Next landscape tour with GulfScapes has been scheduled for February 1^{st} . Recently while on tour, staff observed a few areas that require attention, this information has been provided to GulfScapes to be completed.

<u>Coconut Road:</u> Staff observed Gold Mound Duranta shrubs in median at Rail Road tracks and US 41 Entrance that require replacement and treatment for white-fly. Also observed Indian Hawthorne shrubs that require /replacement along South East ROW at Lamps # 14, # 24, #42. Staff has provided this information with photos to GulfScapes for scheduling. Staff will follow up to ensure these issues are completed.

<u>Three Oaks Parkway:</u> Property damages from two car accidents included: sod replacement of 250 Sq Ft., located just after Shadow Wood (Cost \$350.00) and also, Firebush and Dwarf Bougainvillea plant replacements w/minor irrigation repairs on Imperial Parkway were required (Cost \$1,190.00). No one was available at the time of the incident to fill out a police report. Staff has contacted the Bonita Springs Police Department, Lee County Sherriff's Office, and FHP multiple times to obtain this accident report however more information is required for them to search their records.

<u>The Commons:</u> Staff observed mulch path along pickle ball court shell parking lot is continuing to be maintained as required.

Landscape Maintenance: Updates to be provided by GulfScapes.

Brooks Sidewalk Concrete Repairs: Staff toured the areas along Coconut Road, Three Oaks Parkway, and Imperial Parkway with Mr. Merritt on November 2nd for possible tripping hazards of sidewalks. Staff and Mr. Merritt observed quite a few sidewalks that were marked, as well as identifying their location on the Brooks CDD map. These items were provided to Collier Paving for a Proposal. Staff recently received the proposal for this project; however, this is not allocated in the budget at this time so a "Phased Cost by Priority" is required to schedule the necessary repairs.

<u>Directional Signage:</u> Recently while touring the property staff observed three single panel signs that require straightening, one is for Lighthouse Bay the other two are for Copper Leaf. Staff has provided this information to Lykins for an estimate of repairs.
